REBELLION IS NOT CONFORMITY;
IT'S THE ART OF DEFYING THE ORDINARY.

WELCOME TO THE HOME OF THE
AUDACIOUS WHERE THE NORM IS
CHALLENGED, AND THE EXTRAORDINARY
IS EMBRACED. CUPRA TAVASCAN
ISN'T JUST ABOUT ACQUIRING A CAR;
IT'S ABOUT ADOPTING A BELIEF: THAT
ELECTRIC CARS CAN IGNITE PASSION,
AND THAT THRILL IS ACHIEVABLE
WITH ELECTRIC MOTORS. JOIN THE
MOVEMENT WHERE DRIVING BECOMES
AN EXPERIENCE, AND SPORTINESS IS
REDEFINED. THE CUPRA TAVASCAN
SETS ITS TARGET AS A REBEL AMONG
THE ORDINARY. IF YOU RESONATE
WITH REBELLION, THEN YOU'RE PART
OF OUR TRIBE.

BEAUTY

In a world where being one of the few means being one of the only ones, beauty finds its true meaning. There you will find us thriving, because we know that there is no result without process, no reward without sacrifice. We are the architects of change, rearranging the pieces, forging new paths, pursuing excellence and revealing a greater truth. We have produced a masterpiece of effort that exhibits pure, authentic beauty: our CUPRA Tavascan.

EXTERIOR STYLING

CAPTIVATING FRONT LIGHTS

The new CUPRA Tavascan front bumper heralds an exciting era of design, marrying illumination and identity, with the CUPRA logo shining forth, signalling a visually captivating arrival.

COAST-TO-COAST ILLUMINATION

Flow from end to end with the Tavascan coast-to-coast rear lighting, a continuous gleam that weaves elegance with a glowing central CUPRA logo.

INTERIOR STYLING

AMBIENT CABIN LIGHTS

Inside the Tavascan, ambient lighting sets a harmonious and technologically savvy scene, strategically placed to cultivate an immersive driving environment.

OPTIMIZED CENTRAL SPINE

The Tavascan interior is a masterstroke of design, with an elegant central spine and a copper touch. This ensures an intuitive control and a driving experience that's both powerful and confident.

POWER

What have we accomplished? We've meticulously assembled the right pieces, fueled by a vision of defying the norm, of turning rebellion into reality—never fully grasping the magnitude of what was to come. Drive into the realm of electrifying performance with CUPRA Tavascan. This isn't just a car; it's the manifestation of power, speed, and innovation. Experience the exhilaration of acceleration, the precision, and the future of driving—all in one.

BATTERIES

TAVASCAN ENDURANCE UNLEASHED

Traverse further with confidence. The Tavascan's robust 77 kWh battery and rear-wheel drive invite you to explore an impressive up to 568 km range of dynamic, efficient driving.

TAVASCAN VZ POWER

With its 77 kWh battery and dual-motor all-wheel drive, the Tavascan VZ surges forth with a 250 kW thrust, offering safety and unrivalled dynamic performance across an impressive up to 521 km range.

*Electric range combined is in accordance with the Worldwide harmonised Light vehicle Test Procedure.

INNOVATION

Step into the future. CUPRA TAVASCAN is a manifesto of future driving, combining innovation and sustainability. Pushing the limits and challenging the norms, this electric drive redefines what it means to drive. From its cutting-edge technology to its futuristic design, every aspect of this car ensures a smart and comfortable ride.

MOON POWER

MOON CHARGING SOLUTIONS

MOBILE CHARGING

*Charging up to 60 kW - 120 kW via the P-UP app in under an hour.

CHARGING AND RANGE

Stay in charge effortlessly. *Recharge in the blink of an eye and go from 10% to 80% in only 28mins at a 135kW.

MOON WALLBOX

MOON Wallbox energised by Schneider Electric.

Package inclusive standard installation with independent LTA registration.

MOON WALL-MOUNTED FAST CHARGER ENERGISED BY STARCHARGE

*Full charge within an hour - designed for companies, public facilities, or industrial areas.

*Actual charging times will vary depending on various factors, including the type of charger used, the level of charge in the battery, the age type, condition and temperature of the charger and the battery, the power supply, ambient temperature at the point of use and other environmental factors. Charging times will also be affected by the charging curve (for example, once charging passes 80%, charging will slow down to protect the battery's longevity) and will be longer if battery temperature activates safeguarding technology.

TECHNOLOGY

KESY

Keyless Access system locks and unlocks your CUPRA Tavascan's doors without you having to take your keys out of your pocket.

SMART LIGHT INNOVATIONS

Navigate with clarity as the Tavascan's smart lighting informs you in real-time, from call alerts to charge levels, all while guiding your drive with clear lane indications.

MATRIX LED CLARITY

Illuminate your path with the Tavascan's Matrix LED technology, an intelligent system that dispels the shadows and ensures your journey is bathed in clarity, not glare.

SAFETY

TRAVEL ASSIST TECHNOLOGY

The Tavascan's Travel Assist redefines your journey, integrating adaptive cruise control, lane-keeping assistance and traffic jam assist for improving overall driving experience and safety.

HIGH BEAM ASSIST

Driving at night or in bad weather? Your Tavascan has you covered. It automatically switches between full and dipped beams, giving you the perfect light for any situation. Safely see and be seen, without lifting a finger.

ADVANCED ALARM SYSTEM

The Tavascan's alarm system stands guard with a suite of protective features, including intrusion detection, impact sensors, and a high-intensity siren—all accessible via remote control for your peace of mind.

CUPRA e-CARE

WITH EVERY TAVASCAN

Get ready to revolutionise your driving experience with CUPRA Tavascan and now with these additional benefits, there's never been a better time to make the switch to electric.

SERVICE & SUPPORT

Express Service

Get your car back in three hours. This fast-track minor/major servicing includes Service Advisor dialogue, quality control, and a car wash.

* Strictly on an appointment basis only. Any additional concerns, rectifications or replacement of parts will not be classified as Express Service.

100% Genuine Parts

Our service centre uses only Genuine Parts®. That means durable, reliable and optimal performance. To top it off, they're covered by a two-year unlimited mileage warranty.

Vehicle Warranty*

The protection against component repair and replacement cost, as well as the assurance that your car is repaired by an authorised CUPRA workshop.

Roadside Assistance

No need to worry about getting stranded! Your electric car gives ample warning when energy is running low and will automatically switch to energy-saving mode. If you still need assistance, simply contact our Roadside Assistance at +65 6333 8800.

Free Shuttle Service

While waiting for your car to be serviced, a complimentary shuttle service is available to take you to and from nearby MRT station.

Dealer Standard

With direct supervision from headquarters, experience reliable servicing that adheres strictly to factory guidelines.

CUPRA Trained Staff

CUPRA Technicians and Service Advisors are certified under stringent supervision.

Accident Reporting and Insurance Renewal Centre

In the event of an accident, rest assured that our insurance service advisor will provide comprehensive guidance to your accident reporting and vehicle repair.

Time for an LTA Inspection?

Reduce the chances of a re-inspection, with a thorough pre-check carried out by our technicians. If any rectification work is required, you'd be notified at once.

Your Benefits:

- Hassle-free, one-stop inspection service.
- The certainty that your car is ready for the roadworthiness inspection.
- Pre-check is free with any scheduled servicing.

Pre-travel Inspection

Going on a road trip? Minimise the risk of possible adverse events and breakdowns when you send your car for a pre-travel inspection.

Your Benefits:

- A thorough check, including on-board diagnostic test with the CUPRA diagnostic tester.
- Peace of mind knowing your car is in good travelling condition.
- Pre-travel inspection is free with any scheduled servicing.

Body and Paint Warranty

Enjoy a 3-year paint warranty covering manufacturing defects in the paintwork and a 12-year body protection warranty against corrosion from the first date of registration.

Frequency:
Vehicle age, below 3 years: Nil
Vehicle age, 3 to 10 years: Every 2 years
Vehicle age, more than 10 years: Annually

ENVIRONMENTAL INFORMATION

DRIVE PROFILE

This allows the customer to choose between different driving profiles that will change vehicle's behaviour. One of these profiles is the RANGE, which, among other actions, adjusts the climate control and changes the propulsion parameters to reduce energy consumption.

EXTEND BATTERY LIFE

By limiting the maximum SOC% (State of charge) of the high voltage battery to 80%. This function is not activated by default and reduces the vehicle autonomy.

Post-climatization: extends the battery life by regulating its temperature below 38°C if the charging level is above 80% for better storage.

LIGHTING

Headlamps and rear lamps are 100% LED, increasing life service by up to 10 times. For headlamps, power consumption is significantly reduced at least 30%, and the luminous flux effectiveness is increased at least 30% in comparison to a halogen lamp.

RECYCLED MATERIALS

Seat PURE configuration: Its seat central areas contains at least 97% of recycled textile.

Seat CONTRAST configuration: Its seat central areas contain at least 50% recycled microfiber.

ECO-ASSIST

Function PEA (Predictive Efficiency Assist) is a customer vehicle function to facilitate more efficient driving. The PEA provides the driver with information about upcoming events (speed limits, curves, motorway exits, etc.), that require deceleration. While driving with PEA active, the driver is asked to take their foot off the accelerator and an efficient coasting strategy is calculated to reach the event ahead at the optimum speed. During the coasting process, the operation switches between freewheeling/thrust and recuperation. This saves energy and increases range.

Move to ZERO, CUPRA's environmental mission
Climate Change. Resources. Environmental compliance.

TECHNICALS

In the universe of the CUPRA Tavascan, technical mastery isn't just quantifiable; it's an ensemble of engineering feats. Within this domain, every nuance resonates with a commitment to superior performance, blending raw electric power with eco-conscious design.

POWER TRANSMISSION

Drive train	Rear Wheel Drive	All Wheel Drive
Transmission	Single Speed Automatic	Single Speed Automatic

*Additional Information: The technical data displayed are merely indicative and may vary. The available power (KW) and acceleration of the vehicle depends on the battery charge level and its temperature at all times. The pictures are used for illustrative and informational purposes only and may not correspond to the series production.

The electric range of the vehicle varies depending on a series of factors such as the orography of the terrain, the weather conditions, the state of charge of the vehicle (occupants + luggage), the age and condition of the battery, the optional equipment chosen (rims, tyres ...), the use of peripheral consumers such as heating, air conditioning or heated seats, and their driving style. The indicated autonomy is a provisional value and has been calculated in accordance with the WLTP regulation that establishes standard test conditions applicable to all manufacturers so that the values calculated following this regulation are comparable with each other for all vehicles.

Actual charging times will vary depending on various factors, including the type of charger used, the level of charge in the battery, the age type, condition and temperature of the charger and the battery, the power supply, ambient temperature at the point of use and other environmental factors. Charging times will also be affected by the charging curve (for example, once charging passes 80%, charging will slow down to protect the battery's longevity) and will be longer if battery temperature activates safeguarding technology.
